## 2. OVERVIEW OF ONLINE GAMING SYSTEM COMPONENTS ASSESSED

### Game or gaming technology (including RNG)

This certification report highlights our key findings as a result of the evaluation conducted on the following channels:

- Desktop Channel - Windows 11 Pro, Google Chrome Browser, Version 111.0.5563.66 (Official Build) (64-bit)
- Mobile Channel - Samsung A8, Android 11; SM-X205 Build/RP1A.200720.012 Google Chrome Browser Version 103.0.5060.129

This report supersedes the certification previously conducted, as follows:

- Slingo Pirates Treasure (1.0.0) – Previous Report Reference Number: e233402GRLONTM.

The updates made to the originally certified game encompassed the following changes:

- Critical files have been updated.

### 2.1. Game Overview

| Game Name               | Game ID                    | Version | Platform                       | Game Type    | Manufacturer   |
|-------------------------|----------------------------|---------|--------------------------------|--------------|----------------|
| Slingo Pirates Treasure | slingo-piratestrea<br>sure | 1.0.0   | HTML5-Desktop;<br>HTML5-Mobile | Casino Other | AlchemyBet Ltd |

#### Game Description:

The aim of Slingo Pirate's Treasure is to complete Slingos (win lines) by matching the numbers on the reel to the numbers in the grid above. Each Slingo completed moves the player up the pay ladder to award prizes. Cash prizes are awarded for 3 or more Slingos and a bonus game of increasing value, starting with the 6th Slingo completed.

Further details regarding the betting characteristics, features and detailed game rules can be found in the game instructions which can be provided upon request.

## 2.2. Percentage Return to Player ('RTP')

| Theoretical RTP %   | eCOGRA RTP % Recalculation |
|---------------------|----------------------------|
| Base game: 94.17%   | Base game: 93.51%          |
| Extra Spins: 93.98% | Extra Spins: 94.14%        |

The theoretical RTP percentage indicated in the table above is extracted from the game documentation as provided by the supplier. eCOGRA recalculated the RTP percentage by performing additional independent mathematical calculations on the output of simulation game data.

## 2.3. Game Critical Software Components

The following critical software elements formed part of the assessment scope:

| Software Element Name                     | Version Date | Version Number | Digital Signature (SHA#1 Hash)           |
|---|--------------|----------------|--|
| ChanceEngine.class                        | N/A          | 1.5.0          | F13C9090CCC0FAA67602EEA89FB44EAAD4A52C1A |

#### **2.4. Random Number Generator**

The RNG utilised in evaluating the game output and games rules has been sufficiently and appropriately tested under a separate RNG testing report. Please refer to RNG report with reference number RN-563-GR1-20-02 issued by GLI on 22 November 2021 for further details of testing conducted over RNG.

### 3. ASSESSMENT AND EVALUATION METHODS APPLIED

The sections below provide a high-level overview of the assessment and evaluation methods applied.

#### 3.1. Games and Gaming Technology

Game design testing has included verification of the game mathematics, game artwork, the theoretical RTP and player-facing game rules. Software testing has included evaluation and verification of the software implementation of the game design aspects tested, with verification procedures conducted over games rules and the actual RTP, using methods of simulation, emulation, and manual testing. Game engine testing included verification of the scaling and mapping used to convert raw RNG output to game outcomes..

| Game Assessment Approach        |  |
|---------------------------------|--|
| <b>Game Software Assessment</b> | Verification procedures over sufficiency and appropriateness of the client's internal testing conducted over the game under certification.   |
| <b>Documentation Assessment</b> | Evaluation of the supporting game documentation to ensure that it is consistent and supports the game rules and logic present in the game.   |
| <b>Source Code Assessment</b>   | Evaluation of the pertinent modules of the game source code for mapping of rules and RNG calling.  |
| <b>Mathematical Assessment</b>  | <p>Review of the mapping of the random inputs to game outcomes in accordance with prevailing probabilities and pay tables.</p> <p>Review of the game design and game mathematics that determine the theoretical RTP%.</p> <p>Independent mathematical calculations of RTP% utilising complete, accurate and valid simulated game data output, to verify the theoretical RTP% as per the game mathematics documentation.</p> <p>Game simulation (output) testing to ensure the game outcomes are randomly generated and the actual RTP is within an acceptable range of the expected RTP.</p> |
| <b>Playability Assessment</b>   | <p>Inspection of game interface including artwork and graphics, and clear and correct presentation of the game rules.</p> <p>Evaluation of game accounting in accordance with game pay tables.</p>   |
| <b>Functionality Assessment</b> | <p>Comprehensive operational and functional client-side tests over the game mechanics to ensure that game pay tables, game rules and help files are correctly implemented in the operation of the game.</p> <p>A check on whether it is possible to place a wager outside of the base game and ordinary course of play, and if this wager directly activates a game feature outside of the ordinary course of play.</p>  |
| <b>Emulation Assessment</b>     | Testing of rare outcomes through emulation to ensure that game pay outs, top prizes and jackpot features (if applicable) operate correctly.  |

Further documentation assessments, game functionality assessments and game artwork and game rule review assessments were conducted to verify that the game conformed to relevant certifiable requirements.

#### 4. DETAILED ASSESSMENT RESULTS

Testing, inspection procedures and certification auditing procedures were performed against certifiable sections of the following laws and regulations of AGCO, as applicable to the components relevant to the products within scope:

- Registrar's Standards for Internet Gaming – 2022/10/31

The results of our assessment for conformity with the relevant requirements are detailed below. Different values used in the "Assessment Result" column is described as follows:

- **Compliant:** The relevant components conform to the assessment standards and criteria.
- **Not Applicable:** The requirement is not applicable to the assessment of conformance. Refer to comments for further information.
- **Out of Scope:** The requirement for the assessment of conformance has been excluded from the scope of the assessment. Refer to comments for further information.
- **Non-Compliant:** Non-compliance with the regulatory requirement has been identified. Refer to comments for further information.
- **Compliant with Observation:** The components within the assessment scope conform to the assessment standards and criteria with certain limitations or an area of moderate risk of potential non-compliance identified. Refer to comments for further information.

#### 4.1. REGISTRAR'S STANDARDS FOR INTERNET GAMING – 2022/10/31

| Assessment Standard   | Requirement  | Assessment Result | Comments   |
|---|--|-------------------|--|
| 2.15 Game designs and features shall be clear and shall not mislead the player.<br>This Standard does not apply to sport and event betting products.<br>(Also applicable to Gaming-Related Suppliers) | At a minimum:<br>1. Game design shall not give the player the perception that speed of play or skill affects the outcome of the game when it does not.   | Compliant         |  |
|   | At a minimum:<br>2. After the selection of game outcome, the game shall not make a variable secondary decision which affects the result shown to the player. If the outcome is chosen that the game will lose then the game shall not substitute a particular type of loss to show to the player (i.e. near miss). | Compliant         |  |
|   | At a minimum:<br>3. Where the game requires a pre-determined pattern (for example, hidden prizes on a map), the locations of the winning spots shall not change during play, except as provided for in the terms governing play.   | Not Applicable    | The game under certification does not contain hidden features. |
|   | At a minimum:<br>4. Games shall not display amounts or symbols that are unachievable.  | Compliant         |  |

| Assessment Standard  | Requirement   | Assessment Result | Comments  |
|--|---|-------------------|---|
| 2.15 Game designs and features shall be clear and shall not mislead the player. This Standard does not apply to sport and event betting products.<br>(Also applicable to Gaming-Related Suppliers) | At a minimum:<br>5. Free-to-play games available through the gaming site or related websites shall not misrepresent or mislead players as to the likelihood of winning or prize distribution of similar games, and shall have the same odds of winning as games played for money. | Not Applicable    | The game under certification does not provide for free-to-play games. |
| 2.15 Game designs and features shall be clear and shall not mislead the player. This Standard does not apply to sport and event betting products.<br>(Also applicable to Gaming-Related Suppliers) | At a minimum:<br>6. The denomination of each credit shall be clearly displayed on game screens.   | Compliant         |   |
| Assessment Standard  | Requirement   | Assessment Result | Comments  |
| 2.15.1 The method of making bets in sport and event betting must be straightforward and understandable. Information  | At a minimum:<br>1. Bets on multiple events (parlays) must be identified as parlays.  | Not Applicable    | The game under certification is not a sports/events betting game      |
|  | At a minimum:<br>2. The player must be informed that a bet selected by the player has or has not been accepted.   | Not Applicable    | The game under certification is not a sports/events betting game      |

| Assessment Standard  | Requirement   | Assessment Result | Comments   |
|--|---|-------------------|--|
| <p>must be made available so that the player is clearly informed of the details of the bet prior to making the bet. All selections in a bet must be displayed to the player.<br/>(Also applicable to Gaming-Related Suppliers)</p> | <p>At a minimum:<br/>3. Where the player has placed a bet and the odds, payout odds, or prices of the bet change prior to the bet being confirmed by the operator, the player must have the option of confirming or with drawing the bet (with refund of the bet). This requirement may not apply to an option for automatic acceptance of changes in bets described in Requirement 4 below.</p>          | Not Applicable    | The game under certification is not a sports/events betting game |
|  | <p>At a minimum:<br/>4. Where operators offer an option of automatic acceptance of changes in bets offered, the player must manually opt in to activate this this functionality and must be able to opt out at any time. The details of this auto-accept function and any options for the function must be clearly explained to the player prior to their consent to the application of the function.</p> | Not Applicable    | The game under certification is not a sports/events betting game |
|  | <p>At a minimum:<br/>5. The player must be informed of the period in which bets can be made on an event or series of events and bets cannot be placed after the close of the betting period.</p>  | Not Applicable    | The game under certification is not a sports/events betting game |
|  | <p>At a minimum:<br/>6. Free to play sport and event betting games must not mislead players about the odds, payouts or any element of a bet for value available in sport and event betting.</p>   | Not Applicable    | The game under certification is not a sports/events betting game |
| Assessment Standard  | Requirement   | Assessment Result | Comments   |

|---|---|-------------------|---|
| 2.16 Game designs and features shall help to prevent extended, continuous and impulsive play and facilitate low risk play behaviours.<br>(Also applicable to Gaming-Related Suppliers)  | At a minimum:<br>1. Games shall not encourage players to chase their losses, or increase the amount they have decided to gamble, or continue to gamble after they have indicated that they want to stop.  | Compliant         |   |
|   | At a minimum:<br>2. Games shall not provide auto-play features for slots.   | Compliant         |   |
| 2.16 Game designs and features shall help to prevent extended, continuous and impulsive play and facilitate low risk play behaviours.<br>(Also applicable to Gaming-Related Suppliers)  | At a minimum:<br>3. Game play shall be initiated only after the player has placed a wager and activated play. No player shall be forced into game play by selecting the game for review or reviewing information about how the game is played or how bets are made. | Compliant         |   |
|   | At a minimum:<br>4. A player should commit to each game individually, releasing and then depressing the 'start button' or taking equivalent action. Continued contact with a button, key or screen should not initiate anew game.                                   | Compliant         |   |
| Assessment Standard   |   | Assessment Result | Comments  |
| 2.17 The gaming system must not offer functionality which facilitates playing multiple slots games at the same time. This includes, but is not limited to, split screen or multi-screen functionality.<br>(Also applicable to Gaming-Related Suppliers)<br>Combining multiple slots titles in a way which facilitates simultaneous play is not permitted. |   | Not Applicable    | The game under certification is not a slot game |

| Assessment Standard | Requirement  | Assessment Result | Comments |
|---------------------|--|-------------------|----------|
| 2.18                | <p>It must be a minimum of 2.5 seconds from the time a game is started until the next game cycle can be commenced. It must always be necessary to release and then depress the 'start button' or take equivalent action to commence a game cycle.</p> <p>(Also applicable to Gaming-Related Suppliers)</p> <p>A game cycle starts when a player depresses the 'start button' or takes equivalent action to initiate the game and ends when all money or money's worth staked or won during the game has been either lost or delivered to, or made available for collection by the player and the start button or equivalent becomes available to initiate the next game.</p> <p>A player should commit to each game cycle individually, continued contact with a button, key or screen should not initiate a new game cycle.</p> | Compliant         |          |
| 2.19                | <p>For slots games, the gaming system must not permit a customer to reduce the time until the result is presented.</p> <p>(Also applicable to Gaming-Related Suppliers)</p> <p>At a minimum:</p> <ol style="list-style-type: none"> <li>Features such as turbo, quick spin and slam stop are not permitted. This is not intended to be an exhaustive list but to illustrate the types of features the requirement is referring to.</li> </ol>  | Compliant         |          |
| 2.20                | <p>For slot games, the gaming system must not use auditory or visual effects that are associated with a win for returns which are less than or equal to last total amount wagered.</p> <p>(Also applicable to Gaming-Related Suppliers)</p>  | Compliant         |          |
| 2.21                | <p>For slot games, gaming sessions must clearly display a customer's net position (the total of all winnings minus the sum of all losses since the start of the session), in Canadian dollars.</p> <p>(Also applicable to Gaming-Related Suppliers)</p>  | Compliant         |          |
| 2.22                | <p>Players shall have the means to track the passage of time.</p> <p>(Also applicable to Gaming-Related Suppliers)</p>   | Compliant         |          |

| Assessment Standard  | Requirement  | Assessment Result | Comments  |
|--|--|-------------------|---|
| 2.23 Players shall be provided with an easy and obvious way to set gaming limits (financial and time-based) upon registration and at any time after registration.<br>(Also applicable to Gaming-Related Suppliers) | At a minimum:<br>1. Players shall be provided with the option to set loss and deposit limits during registration.  | Not Applicable    | The scope of assessment is limited to aspects directly managed by the supplier. |
|  | At a minimum:<br>2. Operators must offer players the options of setting limits on any number of the following:<br>a. Deposit limits, where the amount a player deposits into their account is limited over a period of time chosen by the player,                | Not Applicable    | The scope of assessment is limited to aspects directly managed by the supplier. |
|  | At a minimum:<br>2. Operators must offer players the options of setting limits on any number of the following:<br>b. Loss limits, where the amount lost (i.e., winnings subtracted from the amount spent) is restricted.   | Not Applicable    | The scope of assessment is limited to aspects directly managed by the supplier. |
| Assessment Standard  | Requirement  | Assessment Result | Comments  |
| 2.23 Players shall be provided with an easy and obvious way to set gaming limits (financial and time-based) upon registration and at any time after registration.<br>(Also applicable to Gaming-Related Suppliers) | At a minimum:<br>3. The period or duration of the financial or time-based limits offered must include, 24 hours, 7 days and one month. Where the player sets simultaneous periods (e.g., a deposit limit for a day and for a week), the lowest limit must apply. | Not Applicable    | The scope of assessment is limited to aspects directly managed by the supplier. |
|  | At a minimum:<br>4. Financial and time limit functions must be easy to find, reach and initiate or change at any time after the player has registered and opened an account.   | Not Applicable    | The scope of assessment is limited to aspects directly managed by the supplier. |
| 2.24 Where a gaming limit has been previously established by a player, a request by the player to relax or eliminate that  | At a minimum:<br>1. The Operator must not relax or eliminate a gaming limit without a request from the player and only after the expiry of the cooling-off period.   | Not Applicable    | The scope of assessment is limited to aspects directly managed by the supplier. |

| Assessment Standard  | Requirement   | Assessment Result | Comments  |
